

You can refine your search changing dates, selecting stars, hotel types, facilities etc. – useful to find cheapest offers

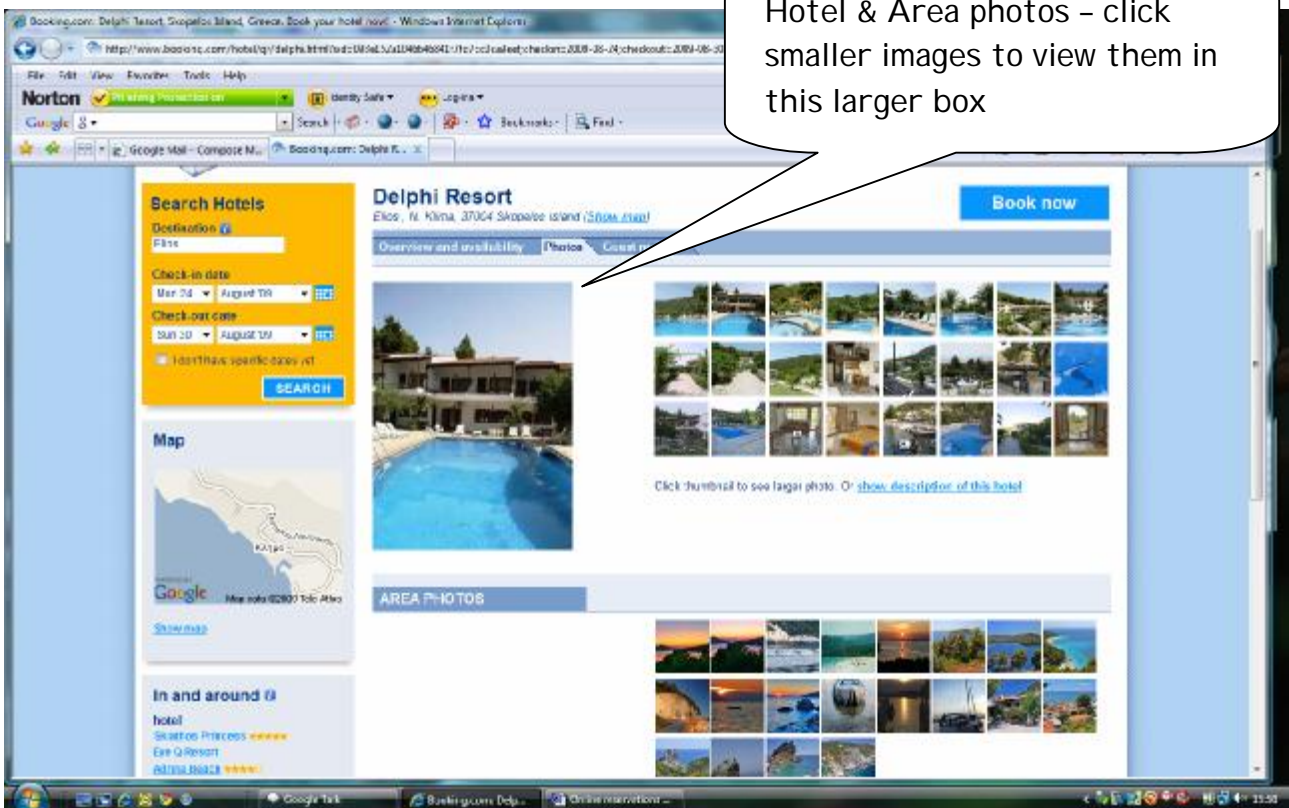

To see more than basic details about a hotel click on the name.

Scroll down for more information or click these tabs for photos & guest reviews

As you scroll lower down the page you see prices for the dates you entered - clicking on "more information" gives a bit more information on the room, facilities etc.

Hotel & Area photos - click smaller images to view them in this larger box

Guest Reviews gives you an overall score - scroll down the page to see what guest wrote

Clicking on these headings selects just reviews by that group e.g. 'mature couples', 'families with younger children', 'young couples' etc.

The screenshot shows the Booking.com interface for a hotel in Greece. The search bar at the top includes fields for destination, check-in date (Mar 24), and check-out date (August 19). Below the search bar is a map of the area. The main content area displays the hotel's overall rating (6.9) and a breakdown of scores for different categories: Staff (6.9), Services (6.9), Clean (6.9), Comfort (7), and Value for money (6.6). A list of individual guest reviews follows, each with a rating and a category. The categories include 'Anonymous', 'Mature couple', 'Family with older children', 'Young couple', and 'Mature couple'. The reviews are ordered by language and date, with a maximum of 25 reviews shown. The first review is from an anonymous user with a rating of 3. The second review is from a family with older children with a rating of 7.5. The third review is from a young couple with a rating of 6. The fourth review is from a mature couple with a rating of 6. The reviews are in Greek and provide feedback on the hotel's services, cleanliness, and value for money.
